MEN WANTED

No Man Over 45 Need Apply.

There's the sign that's getting to be a common thing in America. Corporations are retiring men at 50. They are not hiring any over 40. A balded man often looks 10 years older than he is.

A man with gray hair always does. It is important nowadays that a man look as young as he is; it is vastly important that a man having a family dependent upon him should take care of his hair.

If you have dandruff—get rid of it by killing the germs.

If your hair is falling out—stop it. If your hair is turning gray—don't waste any time.

There is no sure remedy that will cure these misfortunes and aid you to remain young.

Parlisan Sage, the great Hair Restorer is guaranteed to permanently remove dandruff in two weeks, or your money back.

Parlisan Sage stops falling hair—it prevents the hair from turning gray. Parlisan Sage is sold and rigidly guaranteed by Wells & Haymaker Co., and druggists everywhere. Price 50 cents a large bottle.

WORRY AND HURRY

Are the two greatest foes to digestion—and very few people reach the age of forty without falling a victim to indigestion in some form or other. Undigested food is a serious menace to health and is the cause of headaches, sleeplessness, flatulency, gas and distress in the stomach, despondency, nervousness, bad breath and impure blood.

In such cases Vinol has a marked beneficial result. It seems to go directly to the seat of trouble, strengthens and tones up the tired, weakened nerves of the stomach, enabling one to digest with ease the very foods that once caused distress.

A case has just come to our attention in Barre, Vt. Mr. Samuel Wheeler suffered with a stomach trouble for years and had taken all kinds of medicines without relief, and at last found a cure in Vinol. He says Vinol was worth five dollars a bottle to him. (We guarantee this testimonial to be genuine).

If you suffer from any form of stomach trouble, try a bottle of Vinol with the understanding that your money will be returned if it does not help you.—Stone & Mercer, druggists, Clarksburg, W. Va.

MINING SCHOOL AT THE UNIVERSITY

Of Practical Nature Will Be
Considered by Regents
at Charleston.

The state board of education will meet in the capitol January 20 and 21. The board is composed of State Superintendent M. P. Shawkey, Dr. J. N. Deahl, of the West Virginia University; Prof. U. S. Fleming, of Fairmont; Principal L. B. Hill, of Tyler county high school, Middlebourne; Superintendent Ira B. Bush, of Parkersburg, and Superintendent C. R. Murray, of Williamsport.

In the week following, or from January 25 to 27 inclusive, the state board of regents will be in session at Charleston, at which time several important matters will be taken up. Among these will be the question of establishing a school of practical mining at the West Virginia University, with a course of two years and cover mine foreman, fire boss, etc. The establishment of this school is certain to be adopted by the regents, and the legislature will be asked in the recommendation of the regents to appropriate money for the establishment of such a branch. The plan is also urged by John Laing, chief of the department of mines, who believes it would be one of the very best moves the state could take, since mining is one of the principal industries of the state. It is not the plan, says those who are advocating this school, that a person go to this school of practical mining for two years and then be given a certificate entitling him to hold the position of mine foreman in any mine in the state. They will be required to spend at least six months in the mine, performing practical work during the two-year course.

From what can be learned, all the members of the state board of regents, and they are J. B. Finley, of Parkersburg; M. C. Lough, of Fairmont; G. A. Northcott, of Huntington; Superintendent George S. Laid-

ley, of Charleston; and State Superintendent of Schools M. P. Shawkey, all are in favor of starting such a school of practical mining and believe that the state university would be the proper place for it.

Among the other questions to be before the regents will be the locating of the Concord normal school, recently destroyed by fire. At least eight towns or villages have filed with the board of regents petitions urging the location of the institution in this or that place, but it is hardly probable that the board will take any definite action—that is, say it should be located at any particular one place, since it could not settle the question, and would have to go to the legislature in any event. Among the places, in addition to Athens Mercer county, where some of the structures are still standing, and where the school has been located ever since the establishment of the Concord Normal school, are Oak Hill, Fayette county; Hinton, Summers county; Bluefield, Mercer county; Clay, Clay county; White Sulphur Springs and Falling Springs, Greenbrier county, and Alderson, Monroe county, and several other places.

The question of location if change Athens is decided, and the real contention for such a step appears to come from the places that would like to have the institution, there will be a lively contest.

TAKEN TO ASYLUM.

Irvin Kidd, of Point Comfort, who was recently adjudged insane and committed to the state hospital for the insane at Weston by Justice Samuel W. Gordon, was taken to that institution Saturday from the county jail by Wade Hardman, an asylum guard, who came here for the purpose.

Miss Alberta McCracken will go to Fairmont this evening to spend Sunday with friends.

Headaches

Hard headaches. Dizzy, sick headaches. Burning, throbbing, splitting headaches. And the great majority are all due to constipation. Anything better than Ayer's Pills? Let your doctor decide.
